## About This Content

**BlackSpot Entertainment** needs your support to deliver the best FPS online game to Steam community possible.

We created **Premium Pack I** to make sure our appreciation shows in the contents.

**Premium Pack I** contains many permanent items and exclusive items.

Here are brief description of each items. All items are permanent except boosters.

\* **Rare M4A1 Rapor, Rare L115A5 Precision** with your own exclusive IGN on the **dog-tags**.

\* **Dragunov, P90, AK-74, Famas G2, M60E4**

\* **Artyom Volkov, Jared Sailor, Mei Hua** characters.

\* **Stechkin APS**

\* **Down Range.**

\* **100,000 GPs**

\* **1200 Gems** (\$12 value)

\* **Two EXP Booster** (50% for 30 days)

---

\* **Three GP Booster** (50% for 30 days)

We really hope you guys like what you see.

Cheers!

---

Title: Line of Sight - Premium Pack I

Genre: Action

Developer:

BlackSpot Entertainment

Publisher:

BlackSpot Entertainment

Release Date: 8 Sep, 2016

a09c17d780

**Minimum:**

**OS:** Windows 7

**Processor:** Dual Core 2.0GHz from Intel or AMD 2.0GHz

**Memory:** 2 GB RAM

**Graphics:** NVIDIA GeForce 8600/9600GT, ATI/AMD Radeon HD2600/3600

**DirectX:** Version 9.0c

**Network:** Broadband Internet connection

**Storage:** 3 GB available space

English,French,Italian,German,Dutch,Korean,Portuguese,Russian

---

What a guilty pleasure. I have my favourite club, and I pipe my own music in (as you can turn off theirs) and I dance like no one is watching..... heres what i think of the game. The game has some bugs but other than that the game is preety fun to play with friends or without friends. ive played all the junk jack versions and all of them are good.. Great game that apparently didn't sell as well as it should have.

Welcome to the 2000's. Dev should have added MTs - then it would've sold millions.. Singleplayer in a Worms game is usually a bad mix. The AI wasn't improved so you'll enjoy near impossible cheap shots from them. Even at 50 cents this felt like a rip off.. A visual novel that aims to re-create the Wild Western dime-novel experience in a comicbook-like format, Dead End Junction hits all its targets. The cast was an entertaining mix of heroes, villand, and anti-heroes engaged in a plot full of adventure. There was plenty of lightness and humor, and while the story addressed heavier material, it never let itself get mired down in it: just like the heroine Josette, it would always pull itself up by the bootstraps.

I found the ride thrilling and engaging. There is an awful lot of content for the cost, and aside some editing lapses the production quality is high. I recommend Dead End Junction to anyone who enjoys a good story.

More please.. dis gam is more gooder then csgo. Love this Route, It is a must have for all US players. I can not wait to see more US routes like this one.. Draugen is a great (albeit relatively short) story focused adventure game in league of Dear Esther and Firewatch. It's set in the rustic village of Graavic in 1928. The game emphasize this with a black and white mode (1928 mode that I ofcourse use for full authenticity). The normal colored mode is also cool as it uses pastel-like colours to depict the antic mood of the game. The only thing that I miss in the "fjord noir" mode is that the sound will be on narrow bandwith like a very old tv set if you set it to black\white :)

You're Edward Harding and you look for your missing sister Betty who wandered off to Norway. Lizzy, companion, jump-in-the-field side kick and game mechanic extraordinaire is adding another dimension to this game.

Lizzy is playful and mischievous but also tethers to you in a way that she is a secondary angle to the story as you explore the house and vilage of Graavik. She upgrades the experience of the game in such a way that she reminds me of Elizabeth in Bioshock, minus the steampunk and shooting ofcourse but the character's dynamic interplay equals the mistery, liveliness and sense of autonomy you get from Bioshock's Elizabeth. And becaus she's so jumpy and goes all over the place to drive the story it's nice to have an accessibility feature where you will see her soundwaves from afar when she calls for you (or you call for her, which is a main feature of the game which is later being used in a pretty unique way.

The game starts very lighthearted but slowly descends into.....well i'm not at liberty to tell.

What I can tell is that the guys from RTG are always able to create a very distinct artistic visual mood in their games. It's an indie game but you can see that the artists come from an AAA background and infuse their exploration game with quality style and the most beautiful scenery. Just like they did with Dreamfall Chapters and TLJ.. Very uninspired TD game. You never really have enough gold to implement any kind of strategy that the variety of units could

make.. This game is unpolished, buggy and terrible. "Deep tactical turn based combat": Nope, it's as shallow as it could be. If you do decide to try this game after noticing all the negative reviews, get ready to handle a clunky UI with unresponsive controls. 0V10, don't get close to this game even if it's on sale.

---

Its a mediocore port. It's got locked resolution choices, low quality options, and subpar Keyboard + mouse interface.

Now that I've got that out of the way. It is a fairly enjoyable diablo-esque gameplay with ac style mech customization. Story and mission content is pretty good, especially with inclusion of all the dlcs, it gives you more scenarios and lore to followup your previous game

Gameplay wise its fairly simple, however I notice a lot of fps stagers throughout the game. Something the fps lock which unfortunately you can't do anything to fix it without resorting to outside tampering. Also it suffers from having terrible ai partners and sometimes questionable mission objectives. Customibility isn't as deep as say AC. But you got plenty of parts and weapons to experiment on and to figure out your preferred playstyle. Though you're color selection and map layout is limited.

Overall if you really want a decent mecha game in steam that's not another side scroller or faux- walking tank simulator. This one is a good title to look at. It's no AC, nor AC fast. But atl east its an open world hack and slash game with decent story and fun customibility.. Lots of fun, lots to do and very VERY well made. Whilst it's impossible to ognore that this is a tech demo / short experiance, this is exactly the sort of stuff that needs developing into a full on story driven game. Thank you devs. Hope you fully expand on this title....now if you'll excuse me I have potions to mix.. RPG Maker 2003 is great for those who don't know what Ruby / Java scripting is.

The only scripting that would happen would be eventing (because eventing is almost if not as powerful as Ruby / Java Script). I rate this 8.5/10 - SammyCat Studio's

. just bought my first vr set today and boy this game delivers... amazing so far, but im scared to go further.. The game is beautiful and simple, and it was a fun concept to play with another friend through a discord call. It had a lot of potential, and started out with a beautiful story that was fun to unravel.

However, this game has no replayability and only took us about 3 hours. Once you beat all like, 15 short puzzles, you come to the end of the story, and the plot of the story is literally about wasting time. They literally just write 'you wasted x minutes'. It's as if they were rushing to finish it, which is a shame. Neither the game nor the story feels complete.

If it was free, I'd recommend. Otherwise, there is better options.. If you love the original game you will definitely love this DLC, everything it includes add fun to the original.

In fact I think the price of this is much more reasonable compared to the base version.. Not quite an idle clicker, not quite a beat-em-up. Worth the price. Also worth an auto-clicker to save your mouse. Great humor, very irreverent in spots. Loving it so far.. A standalone free-to-play arcade version of Deus Ex: Mankind Divided is amazing in concept, yet terrible in execution. Breach mode is one of the weakest parts of the main game, and that is very aparent here. A very slow grind that is very clearly pay-to-advance, Deus Ex: Breach isn't worth your time.
