The image displays a 3x3 grid of bird photographs on a blue background. The top-left cell features a frigatebird in flight against a light blue sky. The remaining eight cells show a screech owl perched on a dark rock against a green background. The owl is shown in various poses, including looking forward, slightly to the side, and with its wings partially spread. Surrounding the grid are several interactive icons: a white 'X' in a blue circle with a '1' above it; a white 'A' in a blue circle; a white musical note icon in a blue circle; a white arrow pointing right in a blue circle with 'DLC' below it; and a white square icon with a right-pointing arrow in a blue circle.

this game is really good. innovative and fun. it's not what you might expect. You dont really hit the ball.

you launch like 100 balls into this room and it's more about placing the balls so they do as much damage as possible on each turn.

then as they bounce back you can deflect them to keep the run going.

Its a good one to come back to if you like brick breaking games.. I LOVE IT! Its a oldie but a goodie it has awesome gameplay and is very retro pixelated. it is really challenging and has a lot of fun. well worth it 9/10. Surpisingly good though little to no replay value and only takes 5 to 10 minutes to beat. Not a bad thing to have people try. This would have been a fantastic free game but even at only 3 bucks I hesitate to really recomend it, but because it is surpisingly fun I am.. Very repeatable ...Nice physics and graphics but the story and the quests are very repeatable!I barely completed the game..Mixed feelings.But its more like no from me.I ve played every far cry and i liked it but this i dont know.... Maybe the graphic is not high-quality, but I like low-poly game!

The gameplay is much more fun than just watching.

When I kill multiple zombies at once, I feel relieve from stress.

Throw your NPC who disturbs you.

stage 3 was quite hard but I made it!

Wish there's item to kill multiple zombies at once such as bigger flamethrower

If you are good at VR game, try this!

This is a neat DLC, looks pretty good.

I will do some pros and cons for the DLC

PROS

- Superb modelling
- Unique iconography on the right pauldron as well as a unique style of the helmet also hands that look like they're literally made out of iron
- Now you can become one of Ferrus Manus' sons, which specialize in extensive use of bionic enhancements, you have close ties with the Adeptus Mechanicus and therefore have an enhanced arsenal of weapons and vehicles compared to other Chapters of Space Marines

CONS

- No cons

I recommend it. 10/10 would augment myself with bionics again!. good game but beat it in 50mins so i refunded. I really enjoyed this game because of its gothic horror setting and how well written it was. However, I do agree with a previous reviewer AMWild that not enough time and attention was spent on the NPCs you encounter such that your relationships with them do not run very deep at all. Also I found some chapter transitions jarring. Just as I was settling in and getting immersed in the City, you're yanked away to encounter something really overblown (in my opinion). Maybe it's just my personal distaste for that particular story trope.

Anyway, this is one of the better Choice of Games titles. Go ahead, give it a whirl :). Kind of like an interactive painting, but without much interacting except for moving around the space. It's nice to just boot up and sit and listen to the radio or the game music as blocks slowly fall in and out of frame, casting shadows into the room. \$1.99 isn't too bad for all the love and care you can see went into this Diorama. Curious where #2 is though. May look into buying #3. Keep up the good work! Loved the little box diorama that came before the actual Blocked In room.. An excellent educational potential for kids. I mean, who hasn't dreamed of being an astronaut??

9.5/10. Ever get the need to drink coffee, read a great story, shave, eat a strawberry & cereal turkey sandwich, get rained on by demon hounds, deliver a crazy kitchen pot lady to her house, win a dart tournament, fish up bullets and evidence in a waterfall, find a barbell named Arnold, steal a gun from a dog, pay 35 dollars for crackers, talk to a dead guy, and get told ghost stories by a rock star. Then you'll love this game's great story about the metaphoric symbolism of sadist and masochistic relationships within the Tom & Jerry cartoon and the game's great characters. Requires a mod to get past certain points in the game, it also helps a lot to run in compatibility mode for Windows 98 for less crashes. I want you to buy this game so Swery65 has more money to travel to foreign countries and post pictures on his instagram of him drinking their beers.. A bunch of wizards started blowing up the terrain then I crashed to desktop stay away.
